

GEOREFERENZIAZIONE STAZIONE PERMANENTE I.T.S.G. "A. RIGHI"

GLI ALLIEVI DEL "RIGHI" REALIZZANO LA RETE GPS: RE RI 08

The image displays a comprehensive GPS network established by students. The network map covers the coastline from Punta Pezzo to Capo dell'Armi and inland to Bagaladi. Key locations and IGM points are highlighted in yellow on the map. The accompanying photographs show students in various field settings, including coastal areas, urban streets, and rural hillsides, all engaged in precise GPS measurements using RTK technology. The grid layout effectively links the theoretical network to the practical fieldwork.
